Julie Anderson (Housekeeper) NVQ3, First Aid, Food Hygiene, Safeguarding

All staff are DBS checked and attend regular training including First Aid, Safeguarding and more. Regular staff meetings undertake curriculum planning and evaluate child's progress in learning and development.

Key Persons

Our key person's system gives each child a named member of staff who is responsible for their on-going care and development. Each child in the setting has a keyperson to relate to, which can make settling into the group much easier. The Key person maintains links with parents through shared record keeping ensuring that all children are supported in reaching their full potential. If a Key person is absent this will be taken over by their Buddy

Employment

We have an equal opportunities employment policy, seeking to offer job opportunities equally to both women and men.
